

Energy UK privacy policy 2018

About Energy UK

Energy UK is the trade association for the GB energy industry with a membership of over 100 suppliers, generators, and stakeholders with a business interest in the production and supply of electricity and gas for domestic and business consumers.

Energy UK **never** cold calls – calls from companies with a similar name are not connected to us.

IT protection

Energy UK has been accredited with a Cyber Essential Plus certification. For more information or to check our certificate, please click

Data

How we use and collect your data

We collect data to communicate news, send updates to members, distribute our newsletter and share information about our events.

Following the introduction of the General Data Protection Regulations (GDPR) we will only contact you if you have actively confirmed you would like us to communicate with you.

You have the right to unsubscribe at any time by emailing webteam@energy-uk.org.uk and we update your preferences as soon as we are able and at least within 28 days.

What data we collect from you

The information we might collect could include:

- Full name
- Job title
- Address
- Email address
- Phone number
- Credit card details for events registration and membership (please note that we do not retain these details)

Note: data collected from subscribers to our YEP Forum and Pride in Energy network may include additional fields.

Sharing information about you

We may also share information about you when we are required to so by law.

Where we make use of third parties to process personal information, we shall ensure that they have adequate security measures in place and that they comply with this privacy policy.

Cookies & Google Analytics

Cookies are file created by visiting websites. Energy UK uses cookies to understand the user's journey on our websites. Find out more:
